## Kokanee

Sheep Creek

**Start a new tradition this fall  
with the Spawning of the  
Kokanee**

**At summer's end, when kokanee undergo the transformation from sleek silver to fluorescent red, the males acquire humped backs, hooked jaws and elongated teeth.**

### Where?

The best place to view spawning fish is from the Highway 44 bridge over Sheep Creek. There are also a few campgrounds along Sheep Creek before that bridge where you can pull over, park and view the fish along the creek.

### Cross Country Skiing

Flaming Gorge Utah

Enjoy the beautiful
